

Dear Representatives:

The National Association of Manufacturers (NAM), the largest manufacturing association in the United States, representing manufacturers in every industrial sector and in all 50 states, urges you to support H.R. 1628, the American Health Care Act, introduced by Representative Diane Black (R-TN).

The American Health Care Act takes an important step towards repealing the taxes resulting from the Patient Protection and Affordable Care Act. Manufacturers strongly support repeal of the medical device tax, the 3.8 percent net investment tax, the health insurance tax and the pharmaceutical tax, and a delay of the Cadillac tax until 2025. These critical changes will help manufacturers continue to provide quality health care to their employees.

Manufacturers historically have led the business community in providing health benefits to their employees and are committed to continuing this tradition in the future. The American Health Care Act takes a significant step towards reducing excessive taxes to ensure that manufacturers can continue to provide these benefits.

The NAM's Key Vote Advisory Committee has indicated that votes on H.R. 1628, including procedural motions, may be considered for designation as Key Manufacturing Votes in the 115th Congress.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads 'Aric Newhouse'.

Aric Newhouse  
Senior Vice President  
Policy and Government Relations  
National Association of Manufacturers
